HEALTH GOES GLOBAL
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2019

1. Nature of Organization

Health Goes Global (the Organization) is a nonprofit organization that promotes and facilitates preventative health care practices throughout the world for healthcare workers and the communities they serve. The Organization informs, engages, and mobilizes new audiences to take actions and raise funds that support preventative health programs around the world. The Organization funds its programs and supporting services primarily through contributions from corporations, foundations and individuals.

2. Summary of Significant Accounting Policies

Basis of Accounting and Presentation

The accompanying financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Consequently, revenue is recognized when earned and expenses are recognized when the obligation is incurred.

Property and Equipment

Property and equipment over \$1,000 with a projected useful life exceeding one year are capitalized and recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets.

Expenditures for minor and routine repairs and maintenance are expensed as incurred. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is included in revenue or expense.

Classification of Net Assets

- *Net Assets Without Donor Restrictions* represent funds that are not subject to donor-imposed stipulations and are available for support of the Organization's operations.
- *Net Assets With Donor Restrictions* represent funds subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that such resources be maintained in perpetuity. The Organization does not have any donor-imposed restrictions at December 31, 2019.

Revenue Recognition

Unconditional grants, contributions and sponsorships are recognized as revenue when received or promised and are reported as support with donor restrictions if they are received with donor stipulations that limit the use of donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends, or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Revenue and support with donor restrictions are reported as revenue and support without donor restrictions if the restrictions are met in the same period received. Revenues from all other sources are recognized when earned.

Functional Allocation of Expenses

The costs of providing program and supporting services have been summarized on a functional basis in the accompanying statement of activities. The statement of functional expenses present expenses by function and natural classification. The Organization incurs expense that directly relate to, and can be assigned to, a specific program or supporting activity. The Organization also conducts a number of activities which benefit both its program objectives as well as supporting services. These costs, which are not specifically attributable to a specific program or supporting activity, are allocated by management on a consistent basis among program and supporting services benefited based on either financial or nonfinancial data, such as labor distribution or estimates of time and effort incurred by personnel.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Concentrations of Revenue and Other Support

The Organization received approximately 58% of its support and revenue from one grantor foundation for the fiscal year ended December 31, 2019.

4. Concentration of Expenses

Program expenses are expenses incurred that directly relate to and can be assigned to a specific program that supports the Organizations preventative health missions. Program expenses for the year ended December 31, 2019 were \$4,788 and constitute 88% of total expenses incurred by the Organization.

5. Property and Equipment

The Organization carried the following property and equipment at December 31, 2019:

Equipment	\$ 1,026
Total Property and Equipment	\$ 1,026
Less: Accumulated Depreciation	\$ (241)
Property and Equipment, net	<u>\$ 784</u>

6. Net Assets With Donor Restrictions

On December 31, 2019 the Organization had no net assets with donor-imposed restrictions. During the year ended December 31, 2019 no releases from net assets with donor restrictions occurred.

7. Liquidity and Availability of Resources

On December 31, 2019, all of the Organization's financial assets were available for use within the next year.

8. Related Party Transaction

The Organization received a contribution from an entity whose successor trustee is also a minority member of the Organization's Board of Directors. The amount of such contribution was \$6,875 for the year ended December 31, 2019.

9. Income Taxes

Under Section 501(c)(3) of the Internal Revenue Code, the Organization is a nonprofit organization and is exempt from federal taxes on income other than net unrelated business income. No provision for federal or state income taxes is required for the year ended December 31, 2019, as the Organization had no taxable net unrelated business income.

10. Subsequent Events

Management has evaluated subsequent events through April 30, 2020, the date which the financial statements were available to be issued.
